

How to use ppt presenter

Haonan Chen

<https://chaonan99.github.io/about>

Install required package

Repo:

https://github.com/chaonan99/ppt_presenter

Make ppt and write speaker's notes

Presentation

The screenshot shows a Microsoft PowerPoint interface with the 'Home' tab selected. The presentation has three slides. Slide 1 is titled 'How to use ppt presenter' and includes a link to a GitHub repository. Slide 2 is titled 'Install required package' and includes a link to a GitHub repository. Slide 3 is titled 'Make ppt and write speaker's notes'. The speaker's notes for Slide 3 are visible at the bottom of the screen.
